RE: Leaaf Environmental, LLC, Letter of Support; Perez APC Projects

Dear Ms. Renault:

Leaaf Environmental, LLC (Leaaf) has worked with Perez, APC on multiple projects over the past 4 years. Projects include Phase I ESAs (supporting HUD requirements), Phase II ESAs with complex environmental issues, work plan development to satisfy LDE/EPA regulatory requirements for assessment and cleanup. Specific projects that have been completed include:

- AAI/Phase 1 and Limited Phase 2 for HUD property at Imperial Drives
- AAI/Phase 1 for HUD property at Royal and Mazant Street
- Environmental checklists for block grant monies for historic property on Rampart Street
- Mold surveys and management for the LANOIA (New Orleans Airport)
- Surface water sampling and analysis for golf course restoration projects

Leaaf is currently managing the environmental aspects of a complex Brownfields project that will go through the LDEQ Brownfields Voluntary Remediation Program (VRP). The project includes AAI/Phase I; lead, asbestos and mold surveys; Phase II, work plan development, cost estimation, VRP application completion, cleanup activities and coordination with LDEQ. During this project Leaaf has interacted with Brownfields coordinators; regulatory agencies, in general; realtors and financial experts, as well as construction professionals. Leaaf understands the time constraints of such a project and responds quickly and always meets deadlines thus we continue to employ them on the complex Brownfields project.

If you have any questions or need additional information, please contact me at 504-584-5100.

Angela O'Byrne  
Perez, APC
