RE: ***Timeless Treasures***

Dear Ms. Renault:

I would like to thank you and your staff for the time and effort devoted to complete the Timeless Treasures Brownfields Assessment Project in New Iberia, LA. I am deeply appreciative to both you and your staff in not only performing all of the required tasks in the assessment project, but also the professionalism displayed in overcoming the hurdles that Acadiana Regional Development District (ARDD) and the City of New Iberia encountered in completing the project. ARDD considers itself "lucky" in selecting LEAAF Environmental as the agency's environmental professional for this project and would like to utilize your services again should another property site require an assessment before development.

Should you need a reference for future projects, please consider contacting ARDD. Again, thank you.

Sincerely,

Grayling Hadnott
Economic Development Director
